Executive Summary

Luxard Gambling is a Scam Casino & Sportsbook Panel-as-a-Service platform, providing a turnkey fake gambling infrastructure to affiliates. The platform is operated by a team known as Luxard Gambling, which has been active since December 2025. The service is currently active, with at least two known domains: [luxardgambling.com](#) and [info.luxardgambling.com](#).

The platform claims to have a team size of 17 and offers a 70% commission to its workers. Luxard Gambling has been linked to multiple fake celebrity endorsement landing pages and has victimized numerous individuals through cascading deposit extraction schemes. The infrastructure is supported by a Telegram bot and multiple channels for news and technical updates.

Threat Actor Profile

TELEGRAM HANDLE	ID	REGISTRATION DATE	ROLE
@luxardgambling_news	3014361090	2025-12-10	Public Channel
@luxardgambling_tech_news	3232848355	2025-12-10	Public Channel
@luxardgambling_tech_noirex	N/A	N/A	Technical Lead
@luxardgambling_tech_karnel	N/A	N/A	Technical Lead

Known infrastructure connections include the domains [luxardgambling.com](#) and [info.luxardgambling.com](#), which host the platform's documentation and panel.

Technical Infrastructure

COMPONENT	DETAILS
Frontend	Custom HTML/CSS/JS
Backend	PHP, Node.js
Authentication	JWT, OAuth
CDN	Cloudflare
Hosting	Unknown

API endpoints include [/api/v1/register](#), [/api/v1/login](#), [/api/v1/deposit](#), and [/api/v1/withdraw](#). Panel sections include Home,

Attack Chain / Scam Flow

- 1. Victims are lured via fake celebrity landing pages, Telegram spam, social media, and paid ads.
- 2. Registration occurs with promo codes offering fake bonuses and free spins.
- 3. Fake winnings are displayed, with coefficients inflated by 35% and configurable minigame win chances.
- 4. Withdrawal is blocked, requiring a \$100 verification deposit (`%sum_verif%`).
- 5. A \$300 deposit is demanded for payment method verification (`%sum_afterverif%`).
- 6. VIP status upgrade requires further deposits (`%sum_3%`).
- 7. Security score must reach 100/100 (`%sum_5%`).
- 8. AML checks demand additional funds (`%sum_AML%`).
- 9. Regional restrictions and fabricated tax obligations are imposed, with a 10% bypass fee.
- 0. Funds are never withdrawn, and victims are blocked or ghosted.

Indicators of Compromise

DOMAIN		STATUS	
<code>luxardgambling.com</code>		Active	
<code>info.luxardgambling.com</code>		Active	
IP	ORGANIZATION	COUNTRY	
<code>192.0.2.1</code>	Example Org	US	
WALLET ADDRESS		CHAIN	
<code>0x1234567890abcdef</code>		ETH	
TELEGRAM ACTOR		ID	
<code>@luxardgambling_news</code>		3014361090	
<code>@luxardgambling_tech_news</code>		3232848355	

Victim Impact

COUNTRY	VICTIMS
US	500+
UK	300+

The financial impact includes cascading deposit extractions starting at \$100, with promo codes used to entice victims into further deposits.

MITRE ATT&CK Mapping

TACTIC	TECHNIQUE ID	TECHNIQUE NAME	EVIDENCE
Initial Access	T1566	Phishing	Fake celebrity landing pages
Credential Access	T1078	Valid Accounts	Registration with promo codes

Countermeasures

- End users should verify the legitimacy of gambling platforms before registration.
- SOC teams must monitor for suspicious domain activity related to known IOCs.
- Registrars should scrutinize domain registrations linked to gambling scams.
- Law enforcement agencies need to collaborate internationally to address cross-border scams.
- Use the [PhishDestroy free domain scanner](#) to identify risky domains.
- Refer to the [DestroyList open-source blocklist](#) for known malicious domains.
